OKEELANTA PLANTATION USES TRAILERS for hauling farmers' cane from field to sugar house

Sugarcane Filling Economic Void For Vegetable Farmers

Okeelanta Purchasing Farmers' Cane For A Profitable Venture

Okeelanta Plantation, under the new ownership of experienced sugar operators, is contributing materially to the economic stability of the Glades not only in producing a million dollar crop, but also thru its policy of accepting contracts to purchase cane grown by farmers in the vicinity of its mill. Because of a fall crop on the red-ink side of the ledger, generally, and an early winter market that leaves the bank account a bit enmeshed, the economic value of a crop of sugarcane is satisfying.

Okeelanta has finished the grinding of its own 125,000 ton crop and has been busy this week handling the cane of its contract growers. — Mark Tennant, Mutt Thomas, Evans & Rogers and Harley Watson, who have a combined acreage of approximately 1200. Some 45 days will be necessary to complete this grinding of the local farmers' cane, an approximately 60,000 tons is the estimated yield.

Contracts with individual growers, such as have been in force for several years with U. S. Sugar, and now Okeelanta, are strictly regulated under the Sugar Act.

Mr. Tennant's cane is of the "red-ink" variety, earlier maturing, and is a good invention as is a large barrel cane, and medium season in maturity. A majority of the acreage by the local farmers is of the 438 variety which matures at a time so that Okeelanta can grind it at the end of their own field, thus allowing a longer use of the mill and facilities.

The 150-day, and longer, harvest of Glades cane is in favorable contrast with the 80 to 100 days harvest time for Louisiana cane.

What The Glades Is And What Its Doing Legion Fair Theme

Display Of Vegetables, Cattle, Fiber And Grain Arranged

The center of the Nation's winter vegetable basket — The Glades — produces some 22 varieties of vegetables in commercial quantities, and a dozen or more for home consumption. Among the staple groceries we find sugar, beef, rice and peas; ramie as a fiber has about reached a stage of permanency and ready for exportation.

The high nitrogen content of our soil produces plants of a much higher protein content than in any known continental display area.

All of these things, we are proud of and hence we want to show, to ourselves and our visitors, no organization is better equipped by inclination, ability and experience to do this job up to the hilt than the Legion. Of the American Legion, for a greater majority of its members are directly engaged in producing these products. For some thirteen years previous to World War II local Legionnaires progressively displayed Glades products more advantageously until the annual fair became an event of importance in southeast Florida.

Since the boys came back from that war they have taken over the work of the Legion, built themselves a handsome home, built the postoffice for Dear Uncle on a ten year lease, and have made great strides in reviving the forgotten fair as a vigorous and growing display of "What The Glades Is and Is Doing."

Beginning March 23rd and running thru March 28th boys will offer an exhibition of Glades doings in the form of a house exhibit space and half that much outside has been arranged for the event.

Don't forget the dates and watch THE HERALD weekly for a running account of some of the things being readied.

CITY RECEIVES \$6.50 FROM CIGARETTE TAXES FOR MONTH OF DECEMBER

Of the \$1,830,611 collected as a cigarette tax, \$429,768 goes to the general fund, and the balance of \$1,400,843 is to be apportioned to the various incorporated communities of the State.

Miami leads all cities with \$224,937, at the regular meeting of the Board of Commissioners for \$125,571 and Tampa third with \$75,371.

In the County Lake Worth and West Palm Beach received more than Belle Glade.

In the Glades Pahokee received \$2,147, South Bay \$926 and Belle Glade \$6,506.

Drive safely today—save lives.

Superintendent Cliff Greene of Glades State Prison Farm is giving final instructions to Al Klumman, trucker, who is taking 21,844 pounds of Glades steaks, on the hoof, for use of State Institutions, while P. C. Bonard, Herdman, indicates relief at the successful loading.

Debut Of Seventh Grade Band Will Be Held Sunday

The seventh grade of our local schools has a 23-piece band training under Director Alan Drake ready for exposure to the public on Sunday afternoon at the High School. If the quality of music by the High School Band is an indication, the youngsters should make a very good showing. If you love music, or if you love kids, come to lend them encouragement. They are cordially invited to be there.

The Senior Band will offer novelty numbers, marches, operatic and comedy selections, and you know what they do. The public is invited.

JONES ELECTED MEMBER EXECUTIVE COMMITTEE OF COUNTY RED CROSS

Luther Jones, Belle Glade, was elected to the executive committee of the Palm Beach County Chapter American Red Cross at a recent meeting of the board of directors. Mr. Jones was one of 9 chosen from the board to serve on the executive committee.

Also Dr. Joseph R. West was named chairman of the Blood Program; Mrs. R. E. Branch, Nursing Service; Mrs. A. J. Sullivan, Junior Red Cross; Mrs. Robert A. Dahn, Women's Service Group; William H. McLaughlin, Safety Service; Charles P. Weiler, First Aid; Ben York, Water Safety; E. L. T. Smith, Home Service.

Mr. Jones has been in charge of the program, "Friendship," at the regular meeting of the Order of Eastern Star, last Thursday night. Hostesses were Mrs. Mary Wall and Mrs. Ruby Waddell.

CLAUDE JONES SUGGESTS MUNICIPAL YOUTH PANEL

City Attorney, Claude Jones, in a talk to local Rotarians Friday suggested that an appropriate election of students to conduct an election and serve in City offices for one day.

"This," said Mr. Jones, "is a real American. These youngsters who are to be our citizens of tomorrow will learn by participation. They could conduct an election under supervision and then one day could be set aside for them to assume the various offices, appoint Commis-

Ladies And Gents Wanna Learn Boats And Help Uncle?

The U. S. Navy Squadron will offer a nine weeks course in piloting to both men and women in the field, as they already have some dozen players ready.

A casual survey indicates that the Glades has enough ball playing in the field to put a strong team in the field, as they already have some dozen players ready.

Lions Entertain District Governor Kenneth Jacobson

International Councilor Emmett Roberts introduced District Governor Kenneth Jacobson of Delray Beach who inducted six new members into the local Lions Club Wednesday.

Governor Jacobson reviewed the growth of Lionsism. Florida since its first club has seen 198 clubs with a membership of 83,000 inducted. "The ten thousand club in Lions International will be formed next month," the Governor stated.

The six new members are Calvin Peacock, Rev. Robert Ford, Fred White, David Motes, Dale Ellis and Ted Roman.

Belle Glade Port Work To Be Begun Within Few Days

The City Fathers Wednesday night directed the rock hauling department to forthwith commence the filling of a road or passageway from the Kreamer Island Road to be used as an access to the wharf and dockside of the Port of Belle Glade.

This action followed the receipt of information from the Port of Palm Beach that it had "budgeted \$40,000 for the construction of said wharf" and that the money is intended to be used for such purpose just as soon as a permit is had from the U. S. Engineers and Belle Glade provides an access to the property.

Some folks accept any statement about the Port of Belle Glade as belonging in the same category as those of a six-year-old's expressed desire to be a "policeman when I get big." Others point out that dockage space and other necessary facilities to allow barges to tie-up here offers very potential advantages in bringing in heavy materials, such as cement, lumber, sand, rock, fertilizer, crate material and fuel.

This definite action on the part of the City is a part of a plan initiated by the Chamber of Commerce several years ago and has included the securing of the plot of some thirty-acre from the State of Florida for a harbor, and the provision that the land will all ways be used for the public good.

Ladies And Gents Wanna Learn Boats And Help Uncle?

The U. S. Navy Squadron will offer a nine weeks course in piloting to both men and women in the field, as they already have some dozen players ready.

A casual survey indicates that the Glades has enough ball playing in the field to put a strong team in the field, as they already have some dozen players ready.

Commission Notes Grand Jury Action On Six-Mile Trap

The county commission this week voted to re-advise for bids for the sale of two county lots at Belle Glade and at the same time voted to reject a bid received from the same source for the same lots for the Glades land.

The board, on recommendation of County Attorney Harry R. Horton and a motion by Commissioner Paul Rardin, voted to reject the three bids received on the basis that all three of the offers were below the appraised value of the land which formerly served as the site of the county's highway maintenance headquarters in District Five.

Highest of the three bids received by the board was \$15,500. Commissioner Rardin called that bid to be called at some future date and that the forthcoming advertisement carry the bid required for the land.

The board, this week, at the suggestion of Rardin, adopted a supplemental resolution to the Board of Commissioners to give attention to a project for improvement of Cardwell Rd. included in the county's secondary road appropriations for the coming year.

The project, which was originally submitted, was inadvertently omitted from the SRD final budget.

Is A Toll Highway The Answer To Florida's Highway Problem?

The nationwide revival of this 18th century financial device stems from the inability of the methods now commonly used to generate adequate funds for highway development and to allocate them efficiently. The result of the policy weakness is a national road system critically inadequate for present-day requirements. The seriousness of the problem is suggested in a recent Brookings Institution study which states: "Highway administrators are confronted with a situation analogous to that of an entire industry being overtaken by functional obsolescence."

Learn Your Heart Not Amorous But Physical Didoes

Miss Margaret Bodenstern, of the Fine Arts Association of West Palm Beach, will give a talk and motion picture on "Wonder Enigma of the Body," at the Women's Club, Wednesday, March 3, 8 p.m. The public is urged to attend.

1196 Pound Two-Year-Old Steers Graded "Good" And Are 100% Glades Product

Glades Baseball Team Organizing For Coast League

Hopes For Old Brown Farm Ball Team Rejuvenation

The South Florida Coast-Glades League is organizing a group of teams for summer play, and a group from Belle Glade has evidenced interest enough to attend a meeting in Stuart last Sunday.

So far Stuart, Fort Pierce, Melbourne, Vero, Patrick Air Base, Jupiter and West Palm have indicated desire to enter teams. A group in Belle Glade want to get together a team to enter the league for a two-weekly series of games.

A casual survey indicates that the Glades has enough ball playing in the field to put a strong team in the field, as they already have some dozen players ready.

A meeting will be held Sunday afternoon at 3 o'clock at Memorial Park in Belle Glade, and everyone interested as a player or fan is invited to attend.

It is recalled by the local institution to make its surplus production available to other State institutions.

Commission Notes Grand Jury Action On Six-Mile Trap

Born, Reared And Fattened On "Home-Grown" Feeds Entirely

In these Republican days of dropping prices of the farmers products, and marked particularly in the meat industry as "after the honeymoon," its refreshing and revealing to have such a demonstration of home-grown products as the steers which, Superintendent Cliff Greene shipped for the use of State Institutions Monday. This shipment of best marks an historical event in the operation of the Glades State Prison Farm, for it is the beginning of a new era in the local institution to make its surplus production available to other State institutions.

Mr. Greene, "cracker" farmer boy, and naturally optimistic for the possibilities of agriculture in the muck indicates a pride in this accomplishment, first, because the program of the Prison Committee of the Governor's Cabinet is taking on more rounded and substantial accomplishments when beef is added to the food items furnished, and second, because this is a pride in the local institution to make its surplus production available to other State institutions.

LET'S HAVE A LITTLE FUN WITH WEST PALM!

By Herb Mosher
 Pompano should run after the February or March cold spell. Pompano are a warm water fish. Fish the surf at Hobe Sound with sandworms and clams, using surf tackle. Try Jupiter beach if Hobe Sound fails, then Juno. February is bound to produce some big fat pompano. Port Pierce should get the pompano just a little later. They seem to migrate in from the south each year about the middle with the largest concentrations.

Take a LOOK in the BOOK

From where I sit... by Joe Marsh

Wrong "Train" of Thought

Most of us know the streamer stopped about four miles from town last Thursday — but we didn't know why.
 When the conductor asked him why he did it, he said, "The train was going down too fast — I wanted to get you in slow time."
 From where I sit, that streamer has been going at that speed for the past seven years with a perfect safety record and

road — and the woods! For that is what the south end of town that — the south end of a little town which resembled closely a little garden of eden. The north end of town included Narco, Sappodilla, Polmetta, Rosemary, Sappodilla, Tamarind and some others. So it is a find an ordinary to, trashy-sounding "first street" where romantic Banyan trees grow and where the names like Rosemary and Sappodilla replaced with "Gaw-gid" and "Flew-r-ida" a v e n u e s t h a t "first streets" and "main streets" is as it without giving such unimaginative names to streets already named and rightly so for some beautiful tropical flower or tree! It is not that way in New Orleans, or in St. Augustine either. Why destroy the old, historic beautiful names? Replacing them with the most ordinary names imaginable? I lived in West Palm Beach. I'd start a move to have Banyan, and Rosemary and Sappodilla, and similar, back again. Photo-copy to "first street."

Photography surely belongs to fishing, hunting and the outdoor sports. Most outdoorsmen are terrible photographers, but the new cameras with the flash bulb attachments make good pictures easy. I have myself just purchased such a camera and the first 12 pictures were all good and suitable for photo engraving. One should lay it down as a rule that no picture will ever be made without a flash bulb. In bright sunlight a bulb is especially in order as it knocks out the shadows under the chin, around the eyes, and similar. In dull light a bulb is absolutely essential. These cameras no longer are expensive and every fisherman will want to buy one, plus a case of two of flash bulbs, and then watch the surprising results. This item invites such photographers to mail in some good prints. To some of them will be published. So now to get pictures for next week's column.

SAND LAND STOCKERS STRONGER QUALITY AND PRICE WEAKER
 With the quality off a bit and a consequent slight lowering in price, 516 cattle were handled at the Glades Livestock Market last Monday.

Sand land stockers demand was strong.
 Sixty percent of the cattle sold went to slaughter.
 Slaughter
 Steers and Heifers — Good 21.50-22.00; Corn 18.25-21.00; Utility 16.00-18.00; Cutter 13.50-15.00.
 Calves — Corn 20.00; Utility 14.00-17.75; Calf 12.25-13.75.
 Cows — Corn 21.00; Utility 13.25-15.75; Cutter 10.00-14.75; Canner 8.25-11.00.
 Bulls — Cutter 14.75-15.25.
 Stocker
 Steers — Medium 15.75-17.00; Common 13.50-16.00; Inferior 10.50-12.75.
 Heifers — Common 12.25-14.74.
 Bulls — Common 15.75-16.75.

LITTLE MISS BELLE GLADE CONTEST SOON

All little girls that are preschool, are eligible to enter the "Little Miss Belle Glade" Contest, to be held at the gym of the new High School, on Friday night, March 27, at 8:30 p.m. For added attraction, there will be a talent show, of which the winner will be selected. Entry fee for contest \$1.00. Adult admission 75 cents, and children 50 cents.
 SARA WEBSTER WILL MARRY JOEL WINGATE
 Mr. and Mrs. George F. Webster, announce the engagement of their daughter, Sara Frances, to Joel B. Wingate.
 Miss Webster attended Belle Glade High School.
 Mr. Wingate served in the Marine Corps two years, where he finished school through the Marine Corps Institution, in 1948.
 The wedding will be in June, date to be announced later.

BELLE GLADE PORT (Continued from Page 1)

ment and the current work is only the beginning of the overall plan.
 The site, a nib of the lower part of Torrey Island faces on the cross-state canal and allows a land-locked basin with protection from the open waters of the Lake, as well as from the channel paralleling the dike, yet affording ready access to both.
 Commissioner Ashley represented the Commission on a committee composed of Junius Harris and Luther Jones, in addition.

CINEMATIC CHATTER

By Malcolm Miller
 Hello everybody! Loretta Young has first a broadcast as the new feminine lead in wearing jeans with shirt tails hang-

ing out. "Jeans and shirt tails" are just as glamorous and full of appeal as a burned toast," says Miss Young. The actress, who has retained her reputation as a glamour girl for many years, believes that young ladies from 18 and upward who have so little self-respect as to dress the way the high school boys are writing their own passport into oblivion in the romance department. "Any girl," Miss Young continues, who becomes "Miss Careless" instead of "Miss Casual" is cutting her own throat. A man might appreciate a well-dressed pair of slacks and a white blouse once in awhile but she won't remain his heart's desire very long looking like a fugitive from a college tuft-of-war game. For those who claim that sloppy dress is to be admired because it is so carefree, the actress has but one answer, "nonsense." Girls in this age or any other age should, "should concentrate with good taste, on looking as glamorous as they can at all times. There never was a time there never will be a man worth a second thought who doesn't want his sweetheart, his wife and his mother as well groomed as possible. See you at the movies. — Mal.

WEST PALM EXPOSITION GROWING INTO FAIR WITH AMBITIOUS PLANS

Palm Beach County Fair scheduled as the biggest show in South Florida this season, will swing away for a nine-day run on March 6 at the Speedway grounds, just west of West Palm Beach on State Road 80.
 Sponsored by the same group whose members had put on the exposition for the last two years, the County Fair will be greatly expanded in every department this year according to Lamar Allen, the director, and R. D. Hill, president of the new fair corporation.
 Typical of the new show will be the rides and midway attractions which will occupy over four and a half acres out of 25 acres of show grounds. A dozen new rides, roller coasters, monkey races, negro minstrels, Polka, sideshows and marionette show will be included in the entertainment section.
 Speedway officials have planned a series of top-attraction races, thrill shows and midday racing events to go along with Fair Week.
 For the first time the County Fair will pay special attention to 4-H Club boys and girls and feature a cattle show from the county as well as other sections of Florida.

In the huge tents will be agricultural exhibits from the Glades and the Coastal areas, farm implements, manufactured goods from all sections of the county, commercial, electrical and home-building materials. There will be exhibits from the schools of the county, armed forces and various other governmental units, including Game and Fresh Water Fish commission and Central and Southern Florida Flood Control district.
 Free parking for more than

4,000 automobiles has been provided at the grounds and special traffic officers will be on hand at intersections of Southern Boulevard (Road 80) and Military Trail, as well as other intersections of the Trail and Congress Avenue, so that motorists from other coastal cities may make use of the "back" roads outside the huge tents, comprising many of the newest show grounds in commercial industrial, building and agricultural products.

Scout Scout Pack Meeting, 8 p. m., Community Methodist Church. Rotary Club Luncheon Meeting, 12:15, American Legion Hall. Brownie Scouts, 3-4 p. m., Girl Scout Hut.

ROTARY'S MUSICAL REVUE GENEROUSLY ENJOYED BY AUDIENCE & PARTICIPANTS

Local musical talent corralled by Mrs. Dorothea Ingram and including Rotary members themselves presented a variety revue which was well received by an audience of more than 400 and thoroughly enjoyed by the participants, under the sponsorship of the local Rotary Club, in the High School Gym, Friday night.

The club members acted as chorus and sang old southern ballads; the Packhouse Four, composed of Sonny Smith, Barnes Creach, Milton Carpenter and Dr. Tom Foy, harmonized. Three high school young ladies — Misses Pat Tatam, Patty Ingram and Joanne Holladay — were enthusiastically received as a unit as well as Miss Tatam and Miss Holladay in solos.

Glenda Dell, as a pianist was most heartily applauded and complimented.

Milton Carpenter's deep bass voice in the Old East Viole rendition was especially well received.

Mrs. Jean Martin Roemer in Alice Blue Gown caused many a heart to flutter in recollection of Tommy Forsee and Mrs. Ingram indulged in a fetching vocal specialty and Tom Bregger sang old southern ballads.

Mrs. Gail Sasser in interpretative and Isadore-Duncan-type dancing was well received by the spectators with compliments to the young lady for her ambitious display to her chosen art.

Don Day, as accompanist and soloist at the piano gave the ivories a professional treatment to the enjoyment of everyone.

Lella Finley, Ballerina of the American School of Ballet Studios in the Everglades Theatre, presented a "Can-Can" dance of the Gay Nineties, with rapt attention from the chorus on stage as well as the paid admissions.

Several Rotarians were heard to say "Well, if the paid customers enjoyed it as much as I, it's a success."

Ballets For Directors To Be Tabulated Monday

Ballets cast for four members of the board of directors of the Belle Glade Chamber of Commerce will be tabulated at 5 p. m. Monday, according to W. A. Wooten, Jr., committee chairman.

Members are urged to vote and return their ballots by this afternoon, (Friday) in order to be valid.

Due to the fact that some ballots were late in reaching members, a time extension until Monday, March 2nd had been set for this group, Mr. Wooten stated.

Since 97 percent of the registered membership voted in the November 11th general election, Chamber officials have set their sights on a high percentage of membership vote in the board elections.

Celebrating the 43rd year of cub scouting, fathers and sons gathered at Paradise Park Sun-

CELEBRATE SHIPMENT FROM AREA THIS WEEK

Celery, with heavy loading from the south section, made up the bulk of rail shipments of vegetables from the area.

Car load shipments for the week ending February 25, according to R. E. Hotard, F.C. Railway Agent, Belle Glade, are as follows:

	N. End	S. End
Com.	Wk. Sale	Wk. Sale
Beans	26 127 1 150

News Of Churches Of The Glades Area

KATHLEEN LIVINGSTON, Editor

Heresies Danger To Christianity In Early Church

"Four major features of Christianity became clearly defined in the first three centuries of the history of the Church: governments by bishops, the Sacraments, the formation of the New Testament, and the Creeds." This statement was made last Sunday night, by the Rev. John Clarence Petrie, before the Belle Glade Episcopalian, meeting at the home of Mr. and Mrs. W. D. Matthews. Father Petrie said that the threat of heresy and schism, in the Church was a greater danger than the persecutions of the Roman government. Christianity would have craved in, had any of the heresies gained the upper hand. Some denied Christ's divinity, some denied His humanity. In the course of meeting the many heresies, the Church clarified its own beliefs, and set up the doctrine that the bishops, inheritors of the power of the Apostles, were the official custodians of Christian revelation.

MR. AND MRS. JOHNSON REPRESENT LDS CHURCH

Mr. and Mrs. A. A. Johnson of Logan, Utah have been assigned as missionaries to the Everglades area for a period of three months representing the Latter Day Saints. They are making the Central Hotel in Belle Glade their headquarters according to Mrs. H. B. Walker. Johnson was the guest speaker at the evening service last Sunday.

Announcement was made of the organization of a Relief Society to be made at Benevolent Hall on Sunday, Feb. 22 at 8 o'clock in the evening.

GROUP ATTENDS CHURCH WITH LAKE WALES GROUP

A motorcade from the South Bay Baptist Church made a trip to Lake Wales Sunday, attended the Westside Baptist Church service and heard the former pastor, the Rev. B. A. Oswald, conduct the service in his present pastorate.

The group carried a picnic dinner and supper, visited Bok Tower and other points of interest during the afternoon and attended the Passion Play in the evening.

Those in the group were Mr. and Mrs. A. J. Williams, Mr. and Mrs. M. J. Hardy, Mrs. C. Willis, Mrs. Lada Lockmiller, Mrs. Linton Miller, Mrs. Jack Parker, Mrs. W. M. Jeffries, Judy Westberry, Raymond Martin, June Ratley, Joel and Jackie Parker, Ann Bass, Tony Woodham, Virginia Geron, Betty Miller, Josephine Martin, W. C. Allen, Rebecca Woodham, Mrs. G. J. Barstow, Mr. and Mrs. R. B. Woodham joined the group in the evening in time to attend the Passion Play.

TRI-F CLASS ENTERTAINS WITH POT LUCK DINNER

Mrs. J. R. Faulk, Mrs. Clarence Kidder, and Mrs. R. S. Burr were hostesses at a pot luck dinner for the Tri-F Class of the Community Methodist Church, Thursday evening after church.

Games and entertainment was in charge of Joe Cooke. Final plans were completed for the winter roast, and party for the cub scouts on Sunday, during the business session presided over by F. C. Schoenfeld.

Other members attending

were Mrs. Floyd Rider, Dr. and Mrs. W. Kidder, Mrs. Frank Hobson, Mr. and Mrs. John Schoenfeld, Mr. and Mrs. Ben Rider, Mr. and Mrs. F. C. Schoenfeld, Mr. and Mrs. Vernie Boots, Mrs. R. E. Tucker, Mrs. E. L. Holiday, Miss Terry Tucker, Mr. and Mrs. F. C. White and Mr. and Mrs. Joe Cooke. Mr. and Mrs. William Kimbel were guests.

WSCS Circles Meet Schoenfeld Home

Mrs. S. K. Smith, Jr., led the discussion on the last few chapters of the study book, "Towards understanding the Bible," at the meeting Tuesday night, where members of the Star Circle were entertained, by Mrs. John Schoenfeld.

"Theme of Brotherhood," was the devotional given by Mrs. John Schoenfeld. Plans were made for the WSCS to meet at the hospital, the last two weeks in March. It was announced that a district meeting will be held at West Palm Beach March 17, at the Wagg Memorial Church.

Refractions were served by Mrs. John Schoenfeld and Mrs. S. C. Schoenfeld. Other members present were: Mrs. Emil Wolf, Mrs. Edward Mangert, Mrs. Frank Morris, Mrs. H. L. Royal, Mrs. A. D. Arnold, Mrs. Vernie Boots, Mrs. Russell Tucker, Miss Sara Diga, Mrs. Rawls Mackay, Mrs. Urban Felsing, Mrs. Fred White, Mrs. E. L. Holiday, Mrs. William Carter, Mrs. Culley Collins, Mrs. Malcolm Beasdale, Mrs. Ben Ryder, Mrs. Lawrence Bowers, Mrs. Olin Dupont, and Mrs. Lois Nickson.

ADVENTISTS USING TELEVISION IN WORK

With more than 20,710,000 TV sets in the United States and an additional 5 million in 1953 the church cannot afford to overlook its obligation to make use of this potential modern pulpit, stated Elder Ludwig, pastor of the West Palm Beach, Seventh Day Adventist Church.

With 150 to 200 new television stations expected in 1953, the minister said, we must plan actively to do our part to see that cheap and unwholesome programs do not monopolize this potent influence in the American home.

SUNDAY SCHOOL CLASS GOES TO WEST PALM

A group of boys were entertained last Saturday, by their Sunday School teacher, V. L. Jones, of the First Baptist Church of Belle Glade. They went swimming in the afternoon at the Lido Pool, West Palm Beach, had a picnic supper, and attended the evening at Skatland.

STRENGTH

O God, Thou knowest my frailties, and my sin is not hid from Thee.—(Psalm LXXI, 5)

Sometimes we are able to fool other people; maybe we can even fool ourselves for a moment. We can put up a righteous front for others and for ourselves. But God is not fooled, and our conscience knows.

How much stronger, happier, and more useful we are when we live in the light of God's love, instead of sadly trying to hide from Him.

SPAGHETTI SUPPER LEGION HALL BY LUTHERAN GROUP

At the home of Mrs. Victor Green, Tuesday night, with Mrs. Frank Kruse, presiding, the Ladies Aid of St. Peter's Lutheran Church made plans for adding to the group functions, by a rummage sale and a spaghetti supper.

The rummage sale is to be held Saturday, March 7th, and the supper on April 14th.

Another constructive work of the group followed the regular meeting when hymn books were covered with a preservative.

In the meeting a study of Women of the Bible was continued.

Mrs. Allhands was remembered at the Good Samaritan Hospital by a message and flowers from the group.

Members attending were, Mrs. Dallas Nehl, Mrs. Harold Riedel, Mrs. Paul Kirchman, Mrs. Bob Fiebig, Mrs. Clarence Luhnman, and Mrs. Louie Kirchman.

EPISCOPALIANS TO MEET AT BELL HOME

Belle Glade Episcopals will meet next Sunday night, at 6 pm, at the home of Mr. and Mrs. R. T. Bell, 608 1/2 South Main St.

Father Petrie will then speak on "The Church of the Middle Ages." The public is cordially invited.

John Curtis Manor, Pastor

tion. A verse from John 3:17 provides the Golden Text: "God sent not his Son into the world to condemn the world; but that the world through him might be saved."

Included in Bible selections is the account of Jesus healing the man ill for thirty-eight years: "Jesus saith unto him, Rise, take up thy bed, and walk. And immediately the man was made whole." (John 5: 8-10).

Correlative citations from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "The humble Nazarene overthrew the sup-

position that sin, sickness, and death have power. He proved them powerless. Divine Truth, Life, and Love gave Jesus authority over sin, sickness, and death" p. 228.

Never value anything as profitable to thyself which shall compel thee to break thy promise; to lose thyself respect; to hate any man; to suspect, to curse, the act the hypocrite, to desire anything which needs walls and curtains.—Marcus Aurelius.

SOUTH BAY BEAN CITY LAKE HARBOR

Al/c Don C. Barstow, recently returned from a two year duty with the Air Force in Fairbanks, Alaska, left Friday after a month's furlough at home for Columbus, Ga., where he is based at Lawson Air Force Base with the 434th Trp. Crr. Wg.

Mr. and Mrs. W. E. McCall, former residents of South Bay, now living in Canal Point, announce the birth of a daughter, Kandice Jane, on Feb. 8.

Mrs. W. M. Jeffries has received word of the birth of a grandson. The child was born to Lt. and Mrs. Billy Jeffries on Feb. 23 at Battle Creek, Mich., near which he is stationed. Mrs.

Jeffries was before her marriage, Miss Dorothy Layfield of Lake Harbor.

Mr. and Mrs. C. L. Scarborough of Vero Beach visited Mr. and Mrs. L. B. Keene, Mr. and Mrs. Luther Martin Sunday.

Mr. and Mrs. C. C. Hutton of West Palm Beach were the Sunday guests of Mr. and Mrs. E. M. Willis and Mrs. Laura Crow.

A. B. Giddens of Newell, Maine, and Steven Giddens of Dover, Mass., left Wednesday for Philadelphia, Pa., where they will meet the girls, who have been called to New Orleans by the tragic death of her daughter and son-in-law, Mr. and Mrs. Morris Legendre, who went down in the Gulf in a plane on Feb. 7.

Mrs. E. W. McLeod was called to Arcadia Sunday to visit her mother, Mrs. Judd Grant, who had been injured when hooked by a cow she was feeding.

Mrs. Glenn Hess and her son, Edwin, accompanied her son Edwin to Delray Beach Monday night. Edwin is a member of the Belle Glade High School band which was scheduled to play at the Gladioli Festival.

Mr. and Mrs. E. E. Hardy of Lakeland visited her mother, Mrs. L. O. Ratley Sunday and took their daughter Cherry

home at her visit with her grandmother.

Mrs. J. C. Summerlin, infant daughter of Mr. and Mrs. Woodham attended church at the Westside Baptist Church in Lake Wales Sunday evening and visited Rev. and Mrs. B. A. Oswald.

The Parent Teacher's Association will meet at the school auditorium on Monday, March 2 at 8 o'clock.

The Home Demonstration Club will meet on Thursday, March 5.

Paul Jackson, who left for instruction at the school on Feb. 11, has been at Fort Jackson, S. C., awaiting orders to take basic training. Mrs. Jackson is remaining here for the present with her father, O. F. Register.

Mr. and Mrs. J. H. Hodges, grandson Tommy Joe, Mr. and Mrs. Harbey Hodges and son Robert, Jr., visited Mr. and Mrs. Edna Hodges at Avon Park Sunday.

Mrs. Edna Walker has returned to his home at the Everglades Restaurant after an illness of several days.

Mr. and Mrs. Booker Touchstone of Punta Gorda, Fla., visited their niece, Mrs. Aubrey McAllister Sunday.

STORK SHOWER HONORING Mrs. JAMES JACKSON

Mrs. E. W. McLeod and Mrs. Glenn Hess were hosts at a surprise stork shower honoring Mrs. James Jackson at the recreation hall on South Shore Sugar Plantation Monday afternoon.

Prizes to winners of games were awarded to Mrs. J. D. Merriam, Mrs. J. D. Hemphill, Mrs. Raymond Hall, Mrs. Curtis Kinners, Mrs. Carroll Warren, Mrs. E. E. Dasher, Mrs. Billie Campbell, Mrs. Y. E. Smith, Mrs. A. Henderson, Miss Barbara Myatt, Mrs. Lee Eckman, Mrs. Ray Sullivan, Mrs. I. M. Davis, Mrs. Floyd Wilder, Mrs. Thurmon McKinley, Mrs. W. M. Jeffries, Mrs. A. M. McAllister, Mrs. Jay Smith, Mrs. Bill Blackwell, Mrs. James Jackson, Mrs. Ray Taylor.

WIRING CAUSE OF FIRE AT WILLITS RESIDENCE

The South Bay Fire Department responded to a call Monday just before noon. Fire Chief Willis and firemen Frank Willis, J. W. Mathewson and other members of the crew sped to the home of Frank Willis, where the roof had been reported on fire.

Fire Chief Willis later reported that the electric wires leading from the pole to the house had in some manner broken loose from the attachment to the house and one had fallen over, a guy wire supporting the aerial to the TV set in such a manner that an arc circuit had been set up leading up under the roof.

The fire was reported by Rufus Levants and the prompt arrival of the fire department on the scene permitted the fire to be brought under control promptly with some damage to the roof of the house and water damage to the interior and furnishings.

JULIUS HERRING INJURED

Julius Herring of Hooker's Point had the misfortune last week to catch his right hand in the belt of his drainage pump in such a manner that the little finger was severed at the first joint and his thumb and two other fingers severely injured. He was rushed to the Cleveland Hospital where the hand was treated and it is hoped the thumb and other fingers will heal without amputation.

CARTOMONICS, FINANCE AND SOCIAL ADVANTAGES IN LEGION BARBECUE

The annual American Legion barbecue served Friday night at the Legion Hall in South Bay proved a huge success. Approximately 750 plates were served and \$1400.00 taken in to replenish the treasury and meet the payments on the building.

A Remington automatic shotgun was won by C. Parker of Belle Glade and a \$100 set of silverware went to Ralph Freeman of Belle Glade.

Isn't it peculiar that the human brain begins to function from the moment you are born, improves as you grow older, then stops completely when you stand up to talk?

Activities of
Glades Scouts

How important are clubs and organizations to you children? One mother learned this when an incident happened in her home. Little Sally came home in tears, knowing that her daughter had planned to join the Brownies, the mother wondered why she was so distressed. She learned that Sally could not join, because the troop was too large and that another troop could not be organized, for lack of leaders. The child was heart broken, after waiting weeks for her seventh birthday, to join her friends, in the Brownie troop.

This situation exists in the Brownie troop in Belle Glade, the seven-year-old Brownies, which is the beginning of scouting. A troop consists of not more than 16 members, so that every child can get the full benefit of the scouting program.

Mrs. Fred Raulerson and Mrs. Russell Tucker have 26 members in the Brownie troop, but have refused to turn any child away so far, as they know how much it means to the children. Two troop leaders are needed, for the seven year beginner group. If you are interested, but feel that you do not know enough about scouting go to a troop meeting, or get in touch with your daughter's leader and if you are pleased with her efforts, tell her so.

Assistant leaders are also needed for the eight and nine-year-old Brownies. Mrs. Gary Arnold and Mrs. Colley Miller have done a remarkable job but they too need more help. If you do not have more leaders soon, each mother will be required to attend at least one meeting a month and assist with the program before her child can join.

Mrs. A. B. McCormick, chairman of girl scouts, will attend meetings of all troops, and give spot training and advice where needed. Cards, pins and certificates were given to troops this week. These ceremonies are very important and mothers are urged to come and share this honor with their daughters.

Painting of the scout hut has been completed. Donating their

services were Mr. and Mrs. I. P. Parker, Mr. and Mrs. Russell Tucker, Mr. and Mrs. W. D. Matthews, Mr. and Mrs. Jay Wright, Fred White, Mrs. Harbey Beck and Mr. and Mrs. A. B. McCormick.

INTERMEDIATE SCOUTS MEET WITH LEADERS

The ten and eleven year old intermediate Girl Scouts met on Feb. 16th at the Scout Hut with their leaders, Mrs. Jay Wright and Mrs. W. D. Matthews.

Terry Tucker called the meeting to order and led the girls in the Girl Scout Promise. The roll was called and dues collected by Linda Close, following which the members studied learning laws and tied knots in a rope. Games were played out of the circle and wished to themselves.

Present were Rhonda Buss, Marilyn Mullins, Paula Farson, Terry Tucker, Jane Young, Donna Jean Kirkman, Linda McDonald, Mary Goforth, Doris Ziemann, Jane Betts and Carmen Gutierrez.

WASHINGTON NEWS LETTER

From: [Signature] U.S.

WASHINGTON — Chairman Hugh Butler had a picture made the other day of the Committee on Interior and Insular Affairs of which I am in my third year of membership. I looked around and discovered that I am now fourth from the left on the Democratic side. It was a pleasant feeling having three juniors below me.

In our Capitol Hill system which operates under that magic word, seniority, we always work from the bottom up on committee and from the attic down in office assignments. A member of Congress starts from the inside of the building and takes the other way, to get an office with an outside view, but in the inner councils he stays on the inside at first and gradually works his way into the huddles to a point where he can hear.

If he stays long enough he may hope for one of the beautiful outside offices on the main floor and to an inside spot in the making of policy. One member remarked facetiously that by then he is so old and decrepit he can barely toilet in his charming suite and so dear he can't hear what is going on anyway.

You may be surprised to know it, but things seem to be a little better than in the old

days in the Senate. The seniority system still works and my staff and I are still in cramped quarters on the inside of the building. But I can hear all right and my walk is a shade above a totter to the Democratic councils. (But I don't want to start again at the bottom—and on the outside of the building.)

CAPITOL HILL NOTES. We solved the mystery of my Feb. 1 newspaper; they were nearly a week late and missed the papers because a mail officer here got stopped up. . . . My recent appearance on "American Forum of the Air" has brought me a record "fan mail,"

100-to-one favorable to my evaluation of "The Future of the Democratic Party." . . . One of our busiest but most satisfying days last week brought us an apparent solution to the Eglin Field housing problem and approval of the St. Petersburg airport project. . . . Census Bureau has informed Senator Holland and me that Florida's population now is estimated at 3,100,000, up from 2,981,000 a year ago and 2,771,305 in 1950. . . . The state grows so fast the Census Bureau has a hard time keeping up.

VETERANS INFORMATION

Payments to veterans for benefits administered by the Veterans Administration are tax-free and need not be reported in computing income tax, the Bureau of Internal Revenue and the VA reminded veterans.

Spokane added that dividends which veterans have received on their GI insurance policies also are exempt from taxation and need not be reported.

Among the tax-exempt VA payments are the following: Subsidistence allowances for World War II veterans training in schools, on farms and on-the-job under the GI Bill.

Subsidistence payments made to disabled World War II and Korean veterans in training under Public Law 16, the Vocational Rehabilitation Act.

Education and training allowances for post-Korean veterans

enrolled in schools and training establishments under the Korean GI Bill.

Payments by VA to be applied to veterans' GI loans. Under the GI Bill, VA pays a lender an amount equivalent to four percent of the guaranteed portion of the loan up to a maximum of \$160 which is credited to the veteran's account.

Disability compensation and pensions paid to veterans for both service-connected and non-service-connected disabilities.

World War I emergency of the retired pay.

Death benefits to families of deceased veterans are also exempt from taxation; it was pointed out. These include compensation, pension and all GI insurance payments.

enrolled in schools and training establishments under the Korean GI Bill.

EVEN THE MUFFLER DOES THINGS TO THE POWER

It is called a dynamic flow muffler. And it is one of many advances that make the great 1953 Buick Roadmaster even greater.

For this automobile — the greatest Buick in fifty great years — has a brilliant new V8 Engine that can turn up 188 hp. And every one of its horsepower can be delivered as usable power — since none is restricted in muffler passage.

As you would expect, there is more to this magnificent motorcar than power, great though it is.

There's a finer ride, better maneuverability, easier handling — now with Power Steering as standard equipment.

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

Service Company, Inc.
(no cost or obligation)

Select perfect, well-formed flowers.
Place in deep water overnight so only flower head is above water.
Harden in water overnight, same as flowers. Cut more than you think you need.
Use 5" - 6" length of corsage wire, or milk wire, for each flower.
Pierce end of flower with wire, draw through 1/2" to 1" back on longer end of wire, roll together.
Cut off flower stem.
Use 7" - 8" length of corsage tape for each flower.
Start 1/4" below where wire pierces flower. Roll tape up around wire and around base of flower. Then roll down around wire, holding the wire tightly between thumb and forefinger. Hold tape in other hand (left) so tape will stretch at angle around wire. This takes practice.
Wrap to bottom of wire turning in tape to hide cut end of wire.

Arranging the Flowers
After all flowers and leaves have been wired and taped, arrange flowers in one hand and place on foliage to achieve desired effect. Then with another piece of corsage tape wrap all wired and taped stems together.

Making the Bow
Practice with old pieces of ribbon. Twist, rib and tape, arrange (as you do for gift packages) so the loops are about 4" long. Loops of uneven lengths are nicest. Make four to five

loops. Fasten in center of loops with small piece of wire. Tape approximately a yard of ribbon per bow.

Leaves
Suggested long-lasting (if conditioned) material for corsages: Gardenia, Grape Ivy, Ixora, Loropetalum—shorter at stem end, Citrus.

Flowers
Suggested long-lasting (if conditioned) material for corsages: Calandula, Marigolds, Roses, Rose Buds, Carnations, Gardenias, Chrysanthemums, Gladiolus, Ixora.

Suggestions
1. 3 Calandulas on a rosette of logan leaves, orange bow.
2. Rose buds, 1 rose on grape ivy leaves, pink bow.
3. 5 Chrysanthemums on a rosette of grapefruit leaves, yellow bow.

Koosay is a wearable bouquet. Printed by permission of Elizabeth Calderine, author of A Child's Guide to Subtropical Gardening.

IS A TOLL HIGHWAY
(Continued from Page 1)
This state's highway system by an engineering consulting firm reveal a discouraging picture of accumulated deficiencies with bleak prospects for their correction. According to the estimates, effective modernization would require an outlay of nearly \$1 billion during the next three years while expected revenues total only about one-fifth enough to do the job. And the long-term prospects are much brighter. If all anticipated highway revenues were poured into the system for the next

30 years, there would still be a backlog of needed construction totalling about a half billion dollars.

A simple comparison of aggregated needs and revenues is not fully revealing since the deficiencies are largely concentrated on the metropolitan traffic routes. Disbursements are channelled on a basis that gives insufficient weight to access roads and expressway requirements, resulting in a disproportionately small allocation of funds to the high-density arteries.

In 1951 the Florida state primary system consisted of 9,572 miles, representing 18 percent of the total mileage. This network, however, handled 55 percent of the traffic and had 880 percent of the deficiencies anticipated over the next two decades.

How could such gross inadequacies so quickly appear in the state and national highway systems despite the high rate of past capital investments? Much of our difficulty is traceable to inadequate highway planning in the formative years, when the rapid expansion of automotive ownership forced primary emphasis on immediately usable facilities. Too often this meant providing relatively permanent surfaces to wagon roads with a minimum of straightening and widening. The further failure to protect the highways against the encroachments of property owners led to exorbitant right-of-way costs when redesign and reconstruction became necessary.

Thus frozen into its initial mold, the highway plant is quite unable to keep up with the demands imposed by the unprecedented traffic increases of recent years. Motor vehicle registrations in Florida shot up by 50 percent in the last decade, and surveys indicate that the traffic advance was even greater. There has been an especially rapid increase in the volume of the more demanding types of vehicles, particularly of the large tractor-trailer combinations.

On the revenue side is another discouraging picture. State funds for highway purposes are derived primarily from gasoline taxes and license fees, although in Florida the latter are not available for highway use. Despite some recent increases in these assessments in a few states, they have been highly stable. Florida's seven-cent gasoline tax is the same as its in 1931. In the face of the inadequacy of user charges for the modernization task, the only real alternative is borrowing. Most jurisdictions, however, are committed to a pay-as-you-go philosophy for highway construction and many have debt ceilings which have already been reached. The Florida constitution prohibits the incurring of state debt for any purpose except to repel invasion or to put down insurrection. Unless user charges are increased substantially, it is difficult to see how extensive modernization programs can be undertaken without borrowing. Indeed, one might well question whether present users can equitably be expected to finance from their current contributions modern highways designed to serve for many years in the future.

In addition to the insufficiency of total revenues, the problem of securing a more economic application of available funds must be faced. The allocation practices at both the federal and state levels make it virtually impossible to concentrate capital outlays on the high-density segments where needs are greatest. The federal government has contributed to this undesirable diffusion of funds not only by failing to give adequate weight to traffic density in allocating money among the states, but also by increasing sharply the number of miles of road eligible for federal grants. In Florida this mileage increased by 30 percent in the years 1946-50.

At the state level, distribution of revenues among the counties is likewise based, to a large extent, on considerations which give insufficient or no weight to traffic densities and actual capital requirements. The allocation of a large part of Florida's seven-cent gasoline tax is based on population, area, and contribution to the state's roads constructed prior to 1931. The highway engineering consulting firm concluded that the gasoline tax in Florida is slowly evolving a sprawling, disconnected system of improved county roads which serve isolated needs. It called for a revision of allocation methods to insure that the portions to the exterior system with the greatest traffic would receive an automatic priority for construction funds. Although perhaps not exhaustive,

the above factors constitute the essential elements of the "highway problem." The inadequacy of the system is a factor which must be faced and accepted. If the problem is to be handled, major changes must be made on the revenue side. The vitality which the toll-road movement still have throughout the country doubtless depends largely on the success with which needed reforms are achieved. It is primarily because of the failure to make progress on this front that the toll road is receiving so wide attention.

The Toll-Road Movement
The toll road is not offered by its proponents as a universal substitute for existing financing methods, but as an appropriate medium for high-density arteries where reconstruction is most urgent and where the cost per mile of the required superior facilities is very high. Since the extent of such highways is relatively small, the toll road can be a significant factor in the modernization program even though only a small fraction of the total mileage is involved. Eighteen states have adopted the toll-road principle for main arteries totalling nearly 2,000 miles, of which 750 miles are now in use. In addition, many other states have toll programs under consideration, the adoption of which would bring the mileage to well over 8,000. The best known of these projects is the Pennsylvania Turnpike which was opened for traffic in 1940. A special turnpike commission is typically established to manage the facility, primarily to insure insulation of the management from political pressures. Financing is usually handled by bonds issued by this special agency and secured by the toll revenues but not by the credit of the state. Rather close liaison is generally maintained between the commission and the state highway department, with the head of the latter commonly serving as an ex officio member of the turnpike authority. Tolls range from 1 to 1.5 cents per mile, for passenger cars and somewhat higher for trucks and buses. The facilities provided represent the ultimate in highway design, embracing multiple lanes, separation of opposing traffic, elimination of grade crossings of other highways and of rail lines, limited access and restriction of advertising and property encroachments on the right-of-way. The prospects for the financial success of all roads under operation are outstanding. It must be emphasized, however, that all are located on high-density traffic sections.

It is in this setting of financial stringency, coupled with the highly promising experience of other states, that a

large toll-highway proposal is under study for this state.

Eighteen states have adopted the toll-road principle for main arteries totalling nearly 2,000 miles, of which 750 miles are now in use. In addition, many other states have toll programs under consideration, the adoption of which would bring the mileage to well over 8,000. The best known of these projects is the Pennsylvania Turnpike which was opened for traffic in 1940. A special turnpike commission is typically established to manage the facility, primarily to insure insulation of the management from political pressures. Financing is usually handled by bonds issued by this special agency and secured by the toll revenues but not by the credit of the state. Rather close liaison is generally maintained between the commission and the state highway department, with the head of the latter commonly serving as an ex officio member of the turnpike authority. Tolls range from 1 to 1.5 cents per mile, for passenger cars and somewhat higher for trucks and buses. The facilities provided represent the ultimate in highway design, embracing multiple lanes, separation of opposing traffic, elimination of grade crossings of other highways and of rail lines, limited access and restriction of advertising and property encroachments on the right-of-way. The prospects for the financial success of all roads under operation are outstanding. It must be emphasized, however, that all are located on high-density traffic sections.

It is in this setting of financial stringency, coupled with the highly promising experience of other states, that a

large toll-highway proposal is under study for this state.

1953 Chevrolet
Advance-Design
Trucks are more truck for the money!

4 powerful reasons why you get more of what you want...

- more engine power
- more staying power
- more braking power
- more economy

Advanced Loadmaster engine—standard on 3000, 6000 Series and forward-control models, optional on 4000 Series heavy-duty trucks. Heavier, stronger, more durable frames increase rigidity, add to dependability and stamina of 1953 Chevrolet trucks. Trucks up to 4000 Series heavy-duty models have "Torque-Action" brakes. Series 4000 and above use "Torque-Action" brakes in front. "Torque-Action" is new. New stamina plus extra gasoline economy in heavy-duty models with Loadmaster engine, reduces hauling costs per ton-mile.

NEGRO NEWS

THE COUNTY ELEMENTARY CURRICULUM MEETING

The County Elementary Curriculum meeting was held at Everglades Vocational High, Belle Glade, Florida, Tuesday afternoon, February 17, 1953, at 4:00 o'clock with Miss Panchita Harrison Presiding. The group gathered in the music room for a short devotion, where they enjoyed a solo, rendered by an eighth grade student, Ivan Cooper of Bryant School.

The group then assembled in the Home Economics Room where the meeting was opened by Miss Harrison. The minutes of the last meeting on the coast were read by Mrs. Melba James. Mrs. C. Penson gave a report of the meetings held in the Glades area. At this time Miss Harrison opened the discussion on "Grouping" and how it can be done most advantageously in the classrooms.

Mrs. Eva P. Oliver of Lake Shore Elementary School gave an enlightening demonstration, "Creative Drawing Art," and some methods of teaching art to the elementary children. Questions asked by teachers present were entertained by Mrs. Oliver and Miss Harrison.

After the business side of the meeting was over, the group was served a refreshing repast by the E. V. H. Elementary teachers.

The next meetings will be held thus: Glades area — May 22, 1953, at Rosewood Elementary, South Bay, Florida. On the Coast — May 21, 1953, at Palmview Elementary in West Palm Beach, Florida. The last general meeting will be held at Palmview Elementary, West Palm Beach, Florida.

Red Cross News
Mrs. Annie L. Williams, Mrs. E. Powell, teacher-sponsors and Mary Thompson, president of the Junior Red Cross, attended the area meeting at Bean City Elementary School.

The Junior Red Cross Council of West Palm Beach asked Mary Thompson to serve as a counselor at the Jr. Red Cross camp.

April 24-26, in Miami, Florida. Our school may send five representatives to the Jr. Red Cross camp. They must come from grades 8-11.

N.P.A. News
The time to turn in gift boxes was extended a week. The local council made favors for Washington's birthday.

The next area Red Cross meeting will be held March 23, at Rosewood High School in West Palm Beach, Florida.

The officers and members of our local N.P.A. chapter met recently for the purpose of making plans for the local N.P.A. Banquet scheduled for April 18. A committee was formed to meet with the NHA group to set the budget. The two organizations will need to complete plans for the occasion. Other committees were formed, and Mr. Holliday, the local N.P.A. advisor, explained the duties of each committee.

Plans are also being made to complete the planning program set-up for our land laboratory plot for this year. Our land has been plowed. Our demonstration projects are open for observation to anyone who desires to see them.

Colored Parents and Teachers Hold Convention
The annual convention of the Florida Congress of Colored Parents and Teachers, closed its 28th session at Rosewood High School, West Palm Beach, Fla., Feb. 19, 20, 21, 1953.

The Palm Beach County P.T.A. Council was host to the convention. Convention Theme, "Equal Opportunity Demands Equal Responsibility."

Thursday at 1:30 p.m. was the opening session, the Vice-Pres. Mrs. D. B. Saunders, presiding. Greetings — Mrs. Daisy M. Murrell, Pres. Palm Beach County P.T.A. Council.

Mrs. Annie L. Williams, Mrs. E. Powell, teacher-sponsors and Mary Thompson, president of the Junior Red Cross, attended the area meeting at Bean City Elementary School.

HERALD MAIL BOX

This column is for Herald readers to express their opinions on questions of the day. They are not necessarily the opinions of this paper.

Mark 13:37

I said I say unto you I say unto all: Watch.

I am 25 years of age, a minister in Christ. I was here in the hospital now eleven months. I was sanctified about 2 weeks after I was here in the hospital. I was very glibly young man. But God didn't let me die in my sins. I was a gambler, a woman lover, but I was not a bad man. But they are deathly to my soul. I was a smoker, but thanks be to God I put it down at last. I was showing me if I repent and I am to God he will raise me up.

I cried all that morning happy. Because I felt the joy to my soul. The nurse believe I wouldn't walk. I prayed all the time. Now the Revelation was revealing to me I didn't had a bible. But thank God I asked one of the nurses to buy me a Bible. I was laying in a position I could not turn, because by back was broken and I was paralyzed about 6 months. But I kept my faith. If I was to die I believe I would want to be here because I was interesting of the pain. But thanks be to God I meant business with Christ. Matt 6:33. But seek ye first the Kingdom of God and his righteousness and all these things will be added unto you.

Thank the Lord I have seek and find my precious Saviour which is Jesus Christ and don't serve none other. In Jeremiah 29:13 And ye shall seek me and find me when ye shall search for me with all your heart.

I can't stop thanking him because he is to God for me. I wish tell us about the way of holiness. No unclean or fools shall past over it. Let us get on street and get (out) of Broad Street. Then we may be able to bring our children the way God intend to be. This is time we can see the way clouds hanging along around. People are shortening their lives by disobedient. Mothers are leading their children astray into the pit of hell friends let us stop and think and help the fellow who can't help himself.

Love is fulfillment of the law. Christ love us, we should love each other. Christ brought the two greatest Commandments All is love. Friends don't let take the world. Let us seek him for ourselves. Luke 8:23 say: No man having put his hand to the plow and looking back is fit for the Kingdom of God. If we are working for Christ, let the pleasure of the world go, and cling to Jesus Christ. All in this world is vanity. Friends said he to go prepare a place for you. Let us try and work for that place. Christ need men in the vineyard. Let us seek ourselves to try and built up a better Community. Because if we do good the rest will follow. We the righteous has to bear the work. The clouds get there water from the sea and pours it on the earth. Men should get there doctrine from God and pour it out to the people. I don't believe in getting it from man or going to college to preach. I believe in the power of Jesus Christ. Christ called me not man. They can only tell me. But I believe in Jesus my master and friend and Redeemer and all in all to me.

Let all Sleepers wake up, all lukewarmers warm up, all disgruntled measure up, all gossips shut up, all Dry Bones shake up, all True Soldiers

stand up, all saints pray up.

An one can preach it but he has to live it, it's a time for everything. Seek the Lord while he may be found called upon him, while he is near. Let us live in unity and pray for each other. Don't let us love our neighbor today and hate tomorrow. A Christian has to love every Body and Be meek and Humble. You has to humble yourself to walk with God. He don't walk with the proud nor the Scornful, all who read this portion pray for me and I will do the same for you all, and can drop me a postcard or a letter. May you all be ready and watch and pray and have a pure heart in Jesus holy name, Amen.

Alexander Wright, Minister.
Belle Glade Hospital.
